PROJECTS

Dice.pub — Dice.pub
Node.js, React, Redux, Express.js, Redis, Websocket, Heroku

Dice.pub is a 5th edition Dungeons & Dragons character sheet builder and player. Performed advanced state and Redux store management to keep track of data and used Websockets and Redis to manage online game server data.

Davocat
Node.js, React, Redux, Express.js, MySQL, Google Cloud

Davocat is forum-like app where users can anonymously share content. Implemented randomized usernames, Markdown text preview, comment trees, and Embedly preview.

EXPERIENCE

Project in a Box, La Jolla, CA — *Project Manager* — Oct 2016 - Jun 2017
Node.js, React, Express.js, Bootstrap

Manager of a team building a service that delivers materials for science projects to be conducted independently by students. Development of this service is overseen by Truong Nguyen, chair of the Electrical and Computer Engineering department at UCSD.

SoloGrid, San Ramon, CA — *Intern* — Jun 2016 - Sep 2016
Node.js, AngularJS, Express.js, Google Cloud, Twilio

Created a web app hosted on Google Cloud that allows remote control of solar-powered machines by using the twilio phone service to text commands.

Giventure, La Jolla, CA — *Full Stack Developer* — Oct 2014 - Jun 2016
Node.js, AngularJS, Express, Microsoft Azure, Bootstrap, Facebook API

Head of Web Development for Giventure Inc., a tech startup based in La Jolla, CA sponsored by Microsoft and UCSD. Developed full stack web app.

Green Plug, San Ramon, CA — *Web Developer* — Sep 2012 - Jan 2013
Html, CSS, php, javascript

Part of a team of three commissioned to build a front-end website for green tech company Green Plug, Inc.
